Training Design Approach

- **Mission-driven**
Our mission is your mission. We do more than deliver training and development, we work with you to deliver results.
- **Action-oriented**
Our team has experience in the public, private and nonprofit sectors – ensuring that participants do more than walk away with good ideas. They walk away with action plans.
- **Results-focused**
We produce measurable results. Fellows report applying lessons learned to become better leaders. Supervisors report improved leadership. Agencies see improved *Best Places to Work* scores.

Approach to Delivering Outcomes for Communities

This new approach is disrupting an outdated, top-down way of doing business, transforming the Federal government into a more effective partner for communities.

PARTNER

- Federal experts work hand-in-hand with residents & local leaders to create targeted solutions that drive outcomes in a given **place** or **community**

ALIGN

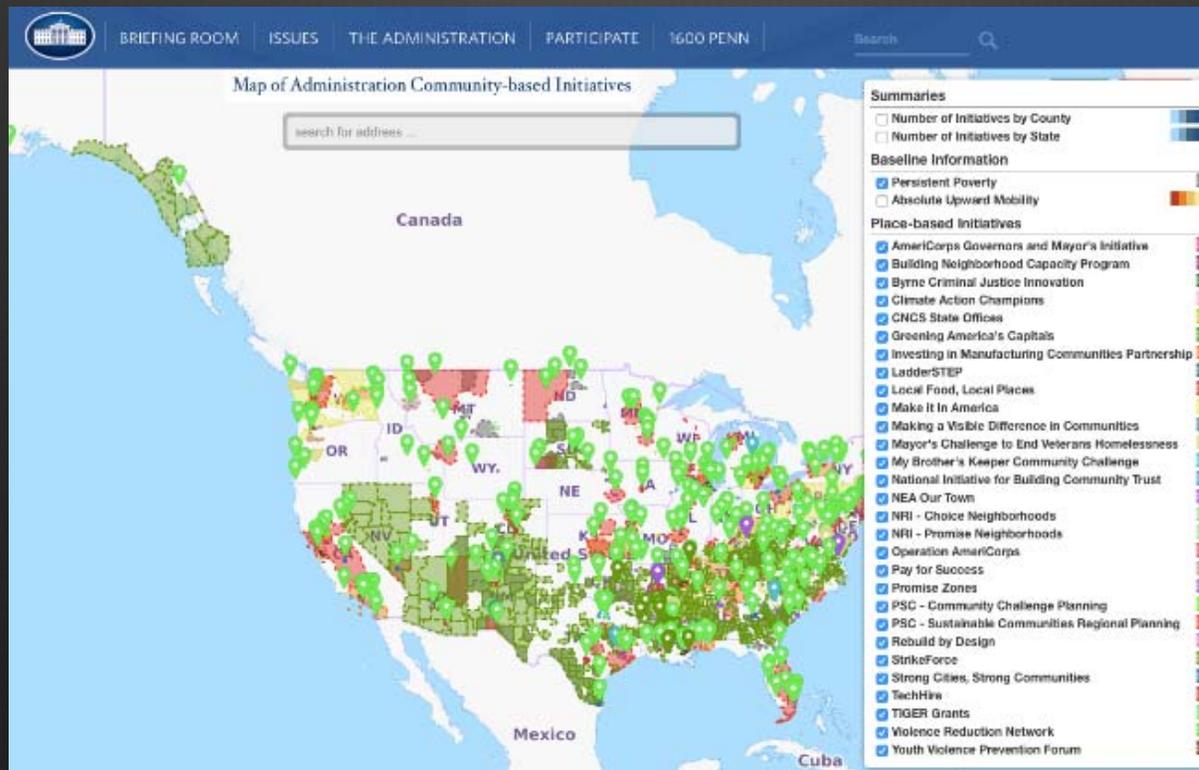

- Enhanced coordination across Federal agencies to improve our interactions with local government, non-profits, business and other stakeholders

TARGET & LEARN

- Reliance on valuable data to help inform solutions and evaluate what's working and what's not.

Why We Are Here

New Approach Yields Outcomes

- Detroit, MI: majority darkness to re-lit with a smaller carbon footprint in less than two years
- Southeastern KY: helping diversify the local economy with TechHire & Local Foods
- Fresno: better aligned Federal investments in transportation & downtown, unemployment down from 18% to 9.3%; 60% decrease in homelessness over 5 years
