

# National Advancing Equity in Adult, Community College, and Career and Technical Education Symposium

October 31, 2016

## REGISTER NOW!!

Registration and hotel accommodations are now available for the *National Advancing Equity in Adult, Community College, and Career and Technical Education Symposium*.

The *National Advancing Equity in Adult, Community College, and Career and Technical Education Symposium* will be held in Washington, DC, on October 31. This will be ED's first convening of external stakeholders around equity in adult, community college, and career and technical education.

The symposium will focus on five equity pillars: Leadership and Policy, Performance Accountability, Research and Evaluation, Innovation and Improvement, Social/Cultural Competency, and Advocacy and Awareness. The symposium will engage thought leaders in secondary, postsecondary, and adult education to advance solutions to issues of equity and access. Additionally, this symposium will provide an opportunity to inform more responsive policies and programs in career, technical, and adult education and at community colleges.

An Advancing Equity Community of Practice has been established to share experiences, best practices, events, and other relevant information related to advancing equity in education. Secondary, postsecondary, and adult education practitioners will collaborate virtually to promote increased access, opportunity, and success for all learners.
